Robber Harms and Sanne Schoenmakers

April 14, 2020

Romantic relationships are the spice of life, they make us feel alive in a way that nothing else can. Genuine romance exists when two people show that they care for each other through small acts of love and affection. We feel loved and cared for when we know that our significant other is thinking about how to give us the most pleasure. Romance is the key to keeping the sparks flying. Without it, any relationship will soon lose its shine.

The mass-energy equivalence is described by the famous equation

$$E = mc^2$$

discovered in 1905 by Albert Einstein. In natural units ($c = 1$), the formula expresses the identity

$$E = m \tag{1}$$
